## BUSINESS BREAKFAST

---

### When was the last time you reviewed your internal documentation on data protection? Key lessons from the latest Lithuanian and European practice on GDPR fines.

Your company probably has some form of data protection documentation aimed at ensuring compliance with the General Data Protection Regulation (GDPR). However, the practice of GDPR fines in Europe has developed rapidly over the years. Ever evolving GDPR practice reveals aspects not known at the time when internal data protection documentation was created. As a result, the documentation is becoming outdated and compliance gaps are emerging. Are you interested in learning, in a concise format, about the key GDPR decisions of recent years and their implications for companies' internal documentation? Then you are cordially invited to a **business breakfast on 19 May 2022 on the topic "When was the last time you reviewed your internal documentation on data protection? Key lessons from the latest Lithuanian and European GDPR fine practice"**.

The business breakfast will be hosted by **bnt attorneys in CEE – Attorneys Linas Vadeika and Yvonne Goldammer**. We will share our knowledge by giving concrete practical examples, listening to your concerns, answering questions, and inviting to discuss.

The event is intended primarily for company representatives working in the field of data protection or legal compliance, as well as managers and decision makers with a data protection focus.
